Kelly,

This E-mail is in response to your E-mail of 21 May 1999 soliciting comments on the Camp Lejeune Health Study Position Paper. The only comment from the Installation Restoration Division of Camp Lejeune is a question:

"Who will carry out the recommended course of action?"

If COA#1 is approved and selected as the course of action, will the task of requesting and obtaining the 25,000 names using the Privacy Act's intra-agency exception be the responsibility of the Installation Restoration Division at Camp Lejeune?

When Neal last spoke to you, he understood that you wanted us to do it.

Please let me know if you have any comments or questions.

Thanks,  
V/R  
Tom
